EDUCATION

University of Bari Aldo Moro
Bachelor's in Computer Science

Bari, Italy
Sep 2024 – Present

WORK EXPERIENCE

Full Stack Developer
Deloitte

Apr 2026 – Present
Bari, IT

- Supported customer management systems used by several public sector organizations. Performed **software testing**, identified and reported bugs, investigated system issues, and supported day-to-day maintenance activities.
- Used APIs to validate **system integrations**, test endpoints, inspect request and response payloads, and troubleshoot data exchange issues between applications.
- Used **SQL** to query databases, identify data patterns, validate records, investigate anomalies, and support issue analysis and troubleshooting.

PROJECTS

JEV AI Chrome Extension | *JavaScript*

Sep 2026

- Built a Chrome Manifest V3 extension that categorizes YouTube videos using titles and durations, using the Jev API.
- Implemented **asynchronous API calls**, DOM observation, caching and automatic page updates to classify new videos without rescanning the whole feed.
- Created to reduce distractions and make YouTube a more focused learning tool.

Bird Flocking Visualizer | *TypeScript, Web Components, CSS, HTML*

Nov 2026

- Developed a **Boids algorithm** simulator to visualize collective and social behaviors of flocks.
- Used Custom Web Components to build a modular and reusable architecture without external frameworks.
- Designed a user interface allowing users to adjust simulation parameters such as speed and visual range.

LEADERSHIP EXPERIENCE

AI2B Hackathon

Feb 2026

- Led a team in developing an innovative AI-powered full-stack solution for urban mobility.
- Managed the entire project lifecycle, from technical ideation to the final pitch, placing **5th out of 30 teams**.

Programming Project

Jun 2025 – Jul 2025

- Coordinated a team of peers to develop a complex software application in C, defining the **system architecture** and overseeing unit testing and debugging.
- Optimized team workflows through regular meetings and code reviews, earning the highest grade of **30/30**.

TECHNICAL SKILLS & LANGUAGES

Programming: TypeScript, JavaScript, C, C++, SQL, HTML, CSS

Technologies & Concepts: Web Components, Chrome Manifest V3, APIs, OOP

Languages: English (Native), Italian
